PROJECTS

Event Platform(Netlify/React + SCSS)
A Livestream platform
• Converted from a Figma design to a responsive Livestream platform in react complete with a landing page, an archive page and an event page.
• Integrated Vimeo using a RESTful JSON API.
• Used Vimeo to keep in sync the Archive page for it to update past event cards programmatically
• Connected the form to Netlify's backend and ensured working validation system

Author Landing Page(Netlify/BootStrap 5 + CSS)
Marketing page for the author of Geriatric Notes
• Built for the author of Geriatric Notes to give their customer base a place to contact and order their book.
• Converted a Figma prototype to a responsive marketing page. Wrote CSS to customize and implement design.

Help Beacon, Hackathon(React-BootStrap + React + CSS/Netlify)
An app for Helping people reach out to their support systems in times of crisis.
• Collaborated with 5 others to compete in Hackathon remotely using a git workflow. Placed 2nd.

EXPERIENCE

Freelance Web Developer (Dec 2021 - current)
• Work directly with small businesses and start-up clients to build landing pages and web apps.
• Meet with clients to discuss tech needs, solutions and software development strategies.
• Convert Figma designs into usable web presence with HTML, JavaScript and CSS.
• Integrate 3rd party services using API's.
• Oversee technical issues and troubleshooting requests to resolve surfaced problems.

Paul's Casablanca - Bartender (Jun 2018 - Jun 2019)
• Provided guests with excellent hospitality for a fast pace and high-volume clientele boutique nightclub in Soho.
• Left due to the pandemic and began my journey as a software developer.

EDUCATION

Courses (2019 - 2021)
• FreecodeCamp
• Open App Academy
• Vue: The Complete Guide, by Maxmillian Schwarzmüller

City University of New York BMCC (2017 - 2019)
• Associate of Arts: Liberal Arts
